CHID Scholarship Writing Workshop

Fall Quarter 2021

Caleb Knapp

Agenda

- 1. Available scholarships and eligibility
- 2. How and when to submit
- 3. Personal Statements
- 4. Project Descriptions
- 5. Scholarship specific questions
- 6. General tips and tricks
- 7. Q&A
- 8. Peer Review Opportunity

Questions?

Ask as we go!

CHID Student Research Awards

- Three awards of \$250 each for CHID majors' and minors' Senior Thesis or research projects
- Awards will be provided based on financial need and the overall quality of the project

John and Eleanor Toews Awards

- Up to four \$300 awards for CHID majors and minors
- For Graduate School Expenses: reimbursement of costs for graduate school applications, graduate exam preparation classes, and/or admissions exams (such as the GRE, LSAT, MCAT)
- For Conference Travel Assistance: funds to help defray costs of travel to conferences, workshops, and other learning opportunities

Emerging Scholars Award

- Offers two to three \$500-1,000 awards annually for CHID majors or minors in CHID-sponsored Study Abroad programs
- For students who have had limited opportunities to study away from the UW and who show exceptional promise as scholars
- *Not currently available*

Colin Wang Memorial Scholarship

- One annual \$1,000 award for a UW undergraduate student who studies abroad on a CHID-sponsored program
- *Only available Winter funding round*

CHID McRae Study Abroad Scholarship

- \$400 merit-based scholarships to UW undergraduates who participate in a CHID-sponsored study abroad program
- For students who "apply their unique talents, energy, and perspective to the study and informed practice of Peace, Reconciliation, and Non-Violent Conflict Resolution"

Eligibility Note:

Due to the limited availability of funds, students are eligible to receive one general award and one study abroad/away scholarship or award per academic year.

How and When to Submit

- Submit everything in a single PDF to Cynthia Anderson, CHID Academic Counselor, by email at chid@uw.edu
- See https://chid.washington.edu/chid-scholarships for details on individual scholarships
- Deadline for Fall 2021:

11:59 PM MONDAY, OCTOBER 25, 2021 PACIFIC TIME

What is a personal statement?

A short, autobiographical account of your fit and goals for the scholarship. This statement differs from the one you submitted to be accepted into college. It should be tailored to every individual scholarship opportunity.

What does a personal statement do?

- Showcases who you are and why you are deserving of an award
- Supplements the other materials in your application (it says what can't be said elsewhere)
- Demonstrates how you will fulfill the goals of the scholarship
- Showcases your priorities

How do I prepare to write a personal statement?

- Read prompts carefully, highlight core themes/questions
- Brainstorm & free write
- Outline
- Respond to all questions

How do I organize a personal statement?

- State "thesis"/overall point at top
- Paragraphs: Anecdote → stakes → connection to scholarship

How do I write a personal statement?

- Focus on yourself (not others)
- Tell a story from your own life (with details!)
- Keep it genuine/use your own voice
- Use active voice
- Move quickly
- Remember your audience
- Respect word/page limits

What should I avoid in a personal statement?

- Cliches & humor (unless you're writing for the Colin Wang award)
- Abstraction and generalization
- Sounding savvy
- Lists
- Including everything from your life

How do I revise a personal statement?

- Read and reread with time in between
- Edit, edit, edit!
- Get as much feedback as possible

What do scholarship committees usually look for?

- Fit
- Merit and/or need
- Potential to fulfill scholarship goals

Examples (good and bad)

Introduction 1

The day was May 28, 2014. My doctor told my parents that I would need Spinal Fusion Surgery with rods and screws, and it had to happen quickly. Before surgery, the doctor suggested strength training for the muscles in my back so that I'd recover faster. I immediately went to the local gym and began working with a personal trainer, Justin. I learned so much from him including how the body works and how surgery takes time to heal. After surgery, I knew that I wanted to use my experience to help others, just like Justin helped me.

Introduction 2

Unlike other teenagers, I'm not concerned about money, or partying, or what others think of me. Unlike other eighteen-year-olds, I think about my future and haven't become totally materialistic and acquisitive. My whole outlook on life changed after I realized that my life was just being handed to me on a silver spoon, and yet there were those in the world who didn't have enough food to eat or place to live. I realized that the one thing that this world needed more than anything was compassion; compassion for those less fortunate than us.

Additional resources and examples:

- The College Application: "How to Write a Killer Scholarship Personal Statement: Definitive Guide With Examples"
- Pomona College: "Writing a Personal Statement for Scholarship and Fellowships"
- Grinnell College: "Writing Personal Statements for Scholarship Applications"

What is a project description?

A concise and detailed account of your research project that addresses three main things: what you're doing, how you're doing it, and why it's important.

What does a project description do?

- Demonstrates feasibility of project
- Showcases value of project
- Demonstrates need for/worthiness of monetary investment

What should a project description include? (depending on application, some or all of below)

- Summary of project (what is your project and what are its contributions? i.e. "elevator pitch")
- Background (what other work has been done in your research area? What are the gaps in this other work?)
- Stakes (how does your research fill in these gaps? Why is your research important overall?)
- Frameworks and methods (how are you studying what you're studying?)
- Goals and outcomes (what does your project aim to achieve? What new knowledge will your project produce?)
- Timeline (what parts of the project will you complete during the scholarship award period?)
- Faculty Mentor (who will supervise your project and why is this person the best supervisor for your project?)
- Budget (how will you spend the scholarship money?)

DOs

- Set achievable goals
- Include concrete detail
- Speak for a non-specialist audience
- Focus on your project rather than yourself

DON'Ts

- Propose too much for timeframe
- Speak in generalizations
- Use jargon
- Focus on your "passion" or "dreams"

What do scholarship committees usually look for?

- Detailed/concrete research plans
- Merits of project
- Funding need
- Likelihood of project completion

- Montana State University: "Guidelines for Writing Project Proposals"
- Carleton College: "How to Write Effective Proposals"
- Pomona College: "Writing a Project Proposal"

Scholarship Specific Questions

Sometimes you'll need to answer questions that are specific to an individual scholarship application. What to do when answering these types of questions:

- Summarize your answer to the question(s) in 1-2 sentences in your opening
- Answer all parts of the question(s)
- Use concrete examples from your own life and research

General Tips and Tricks

- Start early, give yourself plenty of time, and take breaks
- Read the application instructions carefully
- Include detail and be specific!
- Remember less is more
- Ask questions/inquire!!! (talk to Cynthia Anderson, your professors, or me!)
- Get feedback from writing centers, friends, and faculty
- Breathe! Writing applications can be overwhelming but you can do this!!!

Q&A

What questions do you have?

Peer Review Opportunity

Time to get feedback from each other!
